Subj: Information on K-6 math textbook adoption

Dear Parents,

At the May 10th Governing Board Meeting several parents asked the Board to delay the math textbook adoption in order to have more time to review the materials and engage in research and dialogue regarding Everyday Math curriculum. To accommodate their request, the Governing Board delayed the adoption and the following events have been scheduled to educate the parents on Everyday Math curriculum:

- 1 Parent Math Night will be held at the District Office on May 18th at 6:30 p.m. The representative from Everyday Math will be presenting to parents, answering questions and addressing concerns.
- 2 A Board Workshop will be held on May 26th at 7:00 p.m. Teachers, administrators and a publisher representative will be at the workshop to answer questions, explain the selection process and the curricular, standards-based reasons for the textbook series recommendation.
- 3 The Governing Board will hold a special board meeting following the workshop to make a final decision on the math textbook adoption.
- 4 Everyday Math textbooks are available for parents to review at the District Office by appointments. Interested parents may contact Kris Mueller at (818) 952-8395 to make an appointment.

Attached please find the following documents for your review:

- Board Presentation introducing the item on the math textbook adoption
- The textbook rating form (rubric) used by the math adoption committee to rate the materials
- Descriptions of ratings
- Parent input form

[K-12 Textbook Rating Form for Adoptions \(1\).doc](#) [K-12 Textbook Rating Form for Adoptions2.doc](#) [Math textbook adoption -Board presentation.docx](#) [Textbook Adoption Parent input form.docx](#)

Please feel free to attend any or both of the parent math nights to learn more about the math adoption.

Sincerely,

Anais Wenn
